

462 Project Step 1
PudraSekerim3

We elected to gather data manually instead of coding a web scraper because for 150 pieces of data, manual gathering was much more time efficient. The movies we chose to gather the reviews of were: The Pianist, The Revenant, The Post, The Prestige and The Rock.

Each member did:

Yunus Kardaş: Gathered the positive reviews.

Salih Özçelik: Gathered the negative reviews.

Berke Özdemir: Gathered the neutral reviews.
